2022 ANNUAL REPORT –PRISON RAPE ELIMINATION ACT

Background:

The Prison Rape Elimination Act (PREA) was passed in 2003 with unanimous support from both parties in Congress. The purpose of the act was to “provide for the analysis of the incidence and effects of prison rape in Federal, State, and local institutions and to provide information, resources, and recommendations and funding to protect individuals from prison rape.” (Prison Rape Elimination Act, 2003). In addition to creating a mandate for significant research from the Bureau of Justice Statistics and through the National Institute of Justice, funding through the Bureau of Justice Assistance and the National Institute of Corrections supported major efforts in many state correctional, juvenile detention, community corrections, and jail systems.

The act also created the National Prison Rape Elimination Commission and charged it with developing draft standards for the elimination of prison rape. Those standards were published in June 2009, and were turned over to the Department of Justice for review and passage as a final rule. That final rule became effective August 20, 2012.

The PREA Standards and Final Rule can be viewed on the PREA Resource Center’s website. www.prearesourcecenter.org

SWMCCC divisions collect data from the referrals of investigations of nonconsensual/abusive sexual acts and sexual harassment. The data provided on the graphs include the aggregated data for CY 2021 and CY 2022 for each division of SWMCCC.

Comparative Data Analysis:

The following graph is the comparison between reports of Nonconsensual Sexual Contact/Abusive Sexual Contact and Sexual Harassment for both SWMCCC facilities. These totals are all investigations, regardless of the findings of the investigation, to include the unfounded allegations. We have seen a steady decrease of reports of sexual harassment from 2016 to 2018, with a slight increase in 2019 but has been trending downward since 2019. Since 2017 SWMCCC facilities have seen a steady decrease of nonconsensual sexual acts/abusive sexual contact allegations reported, 2022 had zero allegations reported.

The following are continued pro-active/corrective actions completed:

1. Revised and updated PREA policy.

3. Continue to enhance training for staff, contractors, volunteers and residents in a relatable and clear fashion to ensure full understanding of the PREA standards.
4. Continue to enroll staff in PREA Investigator training provided by ND DOCR, utilizing the training provided by The Moss Group.
5. DWCRC is utilizing PREA compliant shower curtains in each housing unit.

Conclusion:

SWMCCC remains committed to continuous evaluation of culture of offenders and staff to remain in full compliance with all requirements of PREA standards. This is accomplished by immediate staff response to reports of allegations of sexual abuse and sexual harassment, timely investigations and staff and offender education.
